

## **Tell Them From Me Student Surveys**

**February 14, 2014**

### Tell Them from Me Student Surveys

Each year Alberta Education surveys students in grades 4, 7 and 10. This survey is used by Alberta Education, Living Waters Catholic Schools and our school in particular to assess how we are doing on a number of measures. We use this data to make and adjust our plan for continuous improvement.

This year the student survey will be different. Holy Redeemer Catholic High School has joined the provincial High School Re-Design Framework. A key component of High School Re-Design is “student voice”. To this end, we will be using the Tell Them From Me survey tool with all our students in order to open the conversation with them as to new ways to further enhance the education experience for all students at HRH.

The survey process will begin next week and with modern technology, we will have the results very shortly thereafter. Staff will then spent time analyzing the results and discussing/clarifying the results with students. We will publish our findings in a future newsletter. We look forward to moving forward with our findings from these surveys.

All survey information is anonymous and voluntary. The survey will take about 35 minutes. All data is aggregated, making it impossible to track responses of an individual student.

Please call the school if you have any questions.
