

Required Signatures

Student

I understand that when I am using the internet I must adhere to all rules of courtesy, etiquette and laws regarding access and copying of information as prescribed by International, Federal, Provincial or Municipal law and the policies and regulations of the Division.

My signature below means that I agree to follow the guidelines of the Student Acceptable Use Policy for Internet access.

Student Name (please print):

Signature:

_____ Date: _____

Parent or Guardian

Students under the age of 18 must also have the signature of a parent or guardian who has read this agreement. As the parent or guardian of this student, I have read the Student Acceptable Use Policy and understand that Internet access is designed for educational purposes. I understand that it is impossible for the Division to restrict access to all unacceptable materials and I will not hold the Division responsible for materials acquired on the Internet. I have reviewed all the points under Conditions and Rules for Use, Network Etiquette and Vandalism and Harassment with my child. I hereby give my permission for my child to access the Internet.

Parent/Guardian Name (please print):

Signature:

_____ Date: _____

Holy Redeemer High

Student Acceptable Use Agreement for Technology Use

The information requested on this form is collected pursuant to the School Act, Section 34 and in accordance with the Freedom of Information and Protection of Privacy Act (FOIP). The information will be used to establish that students, parents and teachers have an understanding of the policy for Acceptable Internet Use and have consented to the rules and precautions in place for such usage. If you have questions concerning the collection or use of this information, please contact your school administrator.

Student Name: _____

School Year: _____ Grade: _____

A new copy of this form must be completed every three years.

Students in Holy Redeemer High and Living Waters School Division are provided access to the Internet using the Division's Wide Area Network. The internet, a network of computer networks, allows our students to interact with hundreds of thousands of networks and computers. Within our schools and libraries, the Internet and e-mail may be used by our students for educational purposes. There is no intent that students use Internet access from Division computers for personal use. The Internet is similar to other student learning resources such as books, magazines, videos, CD-ROM's and encyclopedias.

Each student is provided with an Educational Google APPS account which includes a number of Google hosted services. These services are provisioned to give students and parents the ability to utilize the resources both inside and outside the school environment. Each student has their own account and should the student no longer attend a Living Waters school the account will be deleted. These services are the students' digital binder and hosts their digital learning portfolio. HRH currently limits a number of the Google services to be utilized within our domain boundaries and students will not have the ability to connect with outside parties without the school's prior consent.

Services provided by GOOGLE to students include (but are not limited to):

- Email
- Document Creation (Word-processing, Spreadsheet and Presentation software)
- Document storage (unlimited GOOGLE DOCS and up to 2 GB of other documents)
- Localized web sites
- Access to CHROME based applications
- Access to other GOOGLE based services (search etc.)

Google's Privacy Policy applies to all HRH Accounts and can be viewed at

<https://www.google.ca/policies/privacy/>

Conditions and Rules for Use

Holy Redeemer High reserves the right to access, audit and monitor use of all supplied Information Technology (IT) resources for non-compliance to this policy, without prior notice to the user. There is no expectation of privacy on behalf of the user with regard to information technology resources. It is a general policy that all computers used through the Division's networks are to be used in a responsible, efficient, ethical and legal manner. Failure to adhere to the policy and guidelines for the use of the network as described below will result in the revocation of access privileges and possible disciplinary action. Unacceptable uses of technologies include, but are not limited to:

- Using the network for any illegal activity, including violation of copyright or other laws.
- Using the network in ways which violate school policies and behavior standards.
- Using the network for financial or commercial gain.
- Degrading or disrupting equipment or system performance.
- Invading the privacy of other individuals by accessing and/or vandalizing their computerized data.
- Wasting technology resources, including bandwidth, file space, and printers by downloading music or video files, except for those identified as legitimate curriculum resources.
- Gaining unauthorized access to resources or entities.
- Using an account owned by other users with or without their permission.
- Posting personal communications, including photos of another person, without that other person's consent.
- Giving one's account and password information to other users.

Network Etiquette

All users are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to:

- Being polite in all communications to others.
- Using appropriate language.
- In all activities being compliant with municipal, provincial, federal or international law.
- Maintaining the confidentiality of personal addresses and phone numbers.
- Not using the network in such a way that it would disrupt the use of the network by others.
- Assuming that all communications and information accessible via the Internet are the private property of those who put it on the Internet.

Vandalism and Harassment

Vandalism is defined as any malicious attempt to harm, modify, or destroy data of another user, the Internet or other networks that are connected to the Internet. This includes, but is not limited to, the uploading or creating of computer viruses. Harassment is defined as the persistent annoyance of another user or the interference of another user's work. Vandalism and harassment will result in cancellation of user privileges and possible disciplinary action.

Unacceptable Material

Because access to the Internet provides connections to other computer systems located all over the world, students (and parents) must understand that neither the Division nor any Division staff member controls the content of the information available on these other systems. Some sites accessible via the Internet may contain material that is inaccurate or inappropriate for educational use in a K-12 setting, such as hate literature, pornography, and information related to immoral or illegal activities. The Division does not condone the use of such materials and does not permit usage of such materials in the school environment. The Division uses Internet filtering software in addition to teacher supervision to reduce the likelihood of students accessing inappropriate Internet sites. In the event a student inadvertently accesses an inappropriate Internet site, he/she must advise the supervising teacher of the inadvertent access.

Penalties for Improper Use

Violation of the Division's Acceptable User Policy may result in:

- restricted network access
- loss of network access
- disciplinary action
- legal action

Personal Devices (Wireless)

Students at this school may bring their own personal electronic devices which may be able to connect to the school wireless network. When at school, all of the conditions below apply to these student-owned, personal electronic devices:

- I will only connect to the school wireless network, and NOT to the school's wired network, or any other (external) wireless network, even though other networks for the neighborhood might be visible inside the school.
- The device I am using will have up-to-date virus protection software.
- I will turn off all peer-to-peer (music/video/file-sharing) software or web-hosting services on my device while connected to the school wireless network and respect the personal information of others.
- I will use the student-owned device in class only with the teacher's express permission.
- I understand the security, care and maintenance of my device is my responsibility. I will securely store and charge my device when not in use.
- I understand the school is not responsible for the loss, theft, or damage of my device. I am fully responsible for my property while it is at school.
- I understand school and district technology staff members may access my personal electronic device if there are reasonable grounds to believe there has been a breach of school rules or discipline policies and that a search of the device would reveal evidence of the breach. This may include, but is not limited to, audio and video recording, photographs taken on school property that violate the privacy of others, and issues regarding bullying, etc.
- I will exercise appropriate security procedures at all times when using my own devices in conjunction with the school's wireless network. I will use technology in accordance with the HRH's standards for the Acceptable Use of Technology.
